

Bio-stable type water-soluble metalworking fluid

MORESCO TOOLMATE BS-6S◆ **Characteristics**☆ *Excellent anticorrosion property for non-ferrous metals.*

It has excellent anticorrosion property for non-ferrous metals, especially aluminum alloy and copper alloy.

☆ *Excellent antiseptic property.*

Not only the result of antiseptic agent and alkali agent, but also the combinations with agents which have antibacterial property bring about control of putrefaction. It can reduce environment problem and factory maintenance expenses.

☆ *Excellent cutting property.*

It has excellent cutting property compare with usual water-soluble metalworking fluid.

☆ *No chlorine.*

Chlorine is not mixed in consideration for an environmental problem.

◆ **General Properties****a. Neat fluid**

JIS Classification		A2-1
Appearance		Brown semi- transparent
Density	15°C g/cm ³	0.97
Viscosity	40°C・mm ² /s	51
Flash point	°C	None

b. Diluted fluid (X 20)

Appearance	White semi-transparent
PH (20times dilution)	9.4

◆ **Storage**

Please refer to Material Safety Data Sheet (M.S.D.S) .

◆ **Package**

18 liters / can

200 liters / drum
