Center valve oil

NEOVAC MC-400

Description

NEOVAC MC-400 is the high grade center valve oil which is produced by the fractional distillation of highly refined mineral base oil in MORESCO's unique molecular distiller. NEOVAC MC-400 is center valve oil being used for lump industry.

Characteristics

☆Low vapor pressure

Pumps being enable to obtain the lowest ultimate pressure that rotary pump can attain.

☆Excellent oxidation stability

Can expect long term fluid service, minimizes maintenance job due to the formation of sludge.

General property

		MC-400
Viscosity	40°C·mm ² /s	256.2
Color	ASTM	L4.0
Flash point	°C	298
Pour point	°C	-12.5
Vapor pressure	50°C, Pa	Below 1.3×10^{-4}
	50 , Torr	Below 1.0×10^{-6}

◆How to use

NEOVAC MC-400 is unable to be blended with water or other fluids. Please check correct viscosity grade of the using pump.

◆Storage

Please refer to Material Safety Data Sheet (M.S.D.S.)

Package

1 liter / tin 4 liter / tin 18 liters / can 20 liters / can 200 liters / drum
