

**Strengthen
Positive Effect**

- Create new values and improve productivity through technological innovation
- Strengthen partnership
- Product/Service Innovation
- Promote recycling-oriented society
- Promote the use of renewable energy
- Longer product life
- Stable product supply

**Minimize
Negative Effect**

- Control CO² emissions
- Reduce use of plastic
- Control/more efficient use of energy and water resources
- Reduce waste and wastewater in the production process
- Transaction at fair prices
- Transaction at fair prices
- Products with low waste and environmental impact
- Tighter management of waste treatment
